

## **NAPCO to Showcase Industry Leading Solutions at ASIS 2014**

### **- Innovative LocDown™ School Security and iBridge® Connected Home Solutions in Exhibitor Booth #2911 -**

AMITYVILLE, N.Y., Sept. 10, 2014 /PRNewswire/ -- **NAPCO Security Technologies, Inc.** (Nasdaq: NSSC), one of the world's leading solutions providers and manufacturers of high-technology electronic intrusion security, connected home, video and fire systems, as well as enterprise-class access control and door locking products, today announced it will exhibit and demonstrate its latest innovations in school security, residential interactive home management and security, as well as 3G/4G radio networks and commercial wireless fire solutions at the [ASIS International 60<sup>th</sup> Annual Seminar and Exhibits](#) in booth #2911.

The Seminar and Exhibits are being held at the Georgia World Congress Center in Atlanta, Georgia from September 29 to October 2, 2014, with more than 20,000 security professionals from 80 countries expected to attend.

Richard Soloway, Chairman and President stated, "At NAPCO, we pride ourselves in our ability to continuously improve our products and technologies to meet the ever-evolving needs of both our residential and commercial security customers. ASIS provides an excellent opportunity for us to showcase how we meet and even exceed market demands for security, connectivity and access control. We offer a full suite of products that not only protect and help to manage physical and personal property, but save our clients both time and money."

Mr. Soloway continued, "With our country's growing concern regarding active shooters and school security, these topics are drawing more and more attention and driving increased market demand for a broad range of solutions. Our LocDown™ school security suite of offerings continues to lead the industry with products designed specifically for the protection of our nation's schools and students. Our integrated range of products uniquely positions us to meet the increasing demand for campus security at varying levels of system requirements and budgets. Several of our divisions will hold product demonstrations featuring these state-of-the art products."

### **Products to be Showcased at ASIS, Booth #2911**

- **LocDown™ School Security Solutions**

Napco, Marks USA, Alarm Lock, & Continental Access offer LocDown™ security solutions for every educational building and door, ranging from simple local lock-down from inside the classroom door or with teachers' keyfobs or campus wide, across a local or enterprise network, combining access control, alarms, video, threat-level and visitor-management. <http://www.savischool.com/>

- **iBridge® Connected Home Dealer Program**

As technology advances, homeowners' desire to have inter-connectivity between home systems with remote and instant access increases. From smart phones to tablets to remote computers, homeowners want to access and control components of their home operations and security remotely at any time. With Napco's iBridge Connected Home, this functionality is possible and available today. The iBridge's dealer program includes advantageous, custom, iBridge leading edge product and services, preferred multi-tier pricing discounts, sales and technical training, turn-key marketing materials for print and online, advertising

co-op fund, exclusive lead-gen program, support hotlines, annual meeting, awards and more. <http://connectedhome.net/ibridge-services-home.html>

- **3G/4G Universal Radios**

With the continued obsolescence of 2G telephony, Safeguard accounts, Napco's StarLink 3G/4G Universal Radios, provide a low-cost alternative that works universally on any panel brand (Point ID/4/2) and is field-proven to work throughout the United States. With a new low everyday \$99.95 price and a \$50 Upgrade Incentive to trade-up from any 2G, radio registration is easy with dialer-capture and is easiest for takeovers, without even being on-premises.
