

NAPCO Security Technologies Expands Market with Launch of Verizon Network Certified StarLink™ CDMA Alarm Communicator

NEW YORK, May 26, 2015 /PRNewswire/ -- [NAPCO Security Technologies](#), one of the world's leading manufacturers of high-technology electronic security, connected home, video, fire alarm, access control and door-locking systems, today announces the addition of the StarLink™ CDMA Alarm Communicator, featuring Verizon Network Certified™ service to augment its popular line of Alarm Signal communication devices.

NAPCO's StarLink uses field-proven, Signal-Boost™ technology throughout communication transmission and reception. The super-amplified alarm signals and wave shapes provide unprecedented reliability even in remote/fringe areas, for the ultimate in alarm industry monitoring communications. This effort will considerably expand the Company's market footprint and potentially drive substantial future growth in the lucrative subscription-based, monthly recurring revenue, alarm signal communication category. NAPCO Dealers are in the process of replacing 2G communicators, whose network shuts down in 2017, with our more advanced StarLink 3G/4G and now CDMA product.

NAPCO Security Technologies CEO, Richard Soloway stated, "The launch of NAPCO's StarLink Universal CDMA is a powerful step in increasing our market presence in this highly profitable, service-driven revenue category."

About NAPCO Security Technologies, Inc.

NAPCO Security Technologies, Inc. is one of the world's leading solutions providers and manufacturers of high-technology electronic security, connected home, video, fire alarm, access control and door locking systems. The Company consists of four Divisions: NAPCO, its security and connected home segment, plus three wholly-owned subsidiaries: Alarm Lock, Continental Instruments, and Marks USA.
