

NAPCO Security to Attend Campus Safety Conference

-Company to Showcase Proprietary SAVI School Access-Control Vulnerability Index and Audit System-

-Attendees Include Schools, Colleges and Universities-

AMITYVILLE, N.Y., Aug. 1, 2016 /PRNewswire/ -- NAPCO Security Technologies, Inc. (Nasdaq: NSSC), one of the world's leading solutions providers and manufacturers of high tech electronic intrusion security, IoT connected home, video and fire systems, as well as enterprise-class access control and door locking products, today announces its attendance at the Campus Safety Conference on August 9th-10th in Long Beach, CA.

The Campus Safety Conference is a two-day event in which many school administrators, public safety officials and law enforcement agencies attend in order to learn about solutions for campus safety, emergency management and new technology. NAPCO is proud to be a Platinum Level Sponsor of this important event specifically designed to enhance the safety of educational facilities throughout the country.

NAPCO's proprietary SAVI Index will be showcased to the many attendees. The SAVI audit index is a proprietary and unique tool developed by the Company for schools to quantitatively assess their preparedness with respect to potential security events that may occur. A white paper on Education Security will also be distributed.

"We are excited about the opportunity to showcase NAPCO's industry leading security and technology solutions to a wide range of decision makers responsible for the safety of students throughout the United States," said Richard Soloway, CEO and President of NAPCO. "NAPCO products are currently deployed and successfully protecting hundreds of schools and universities across the country, yet there are thousands more that would benefit from a more secure environment. We look forward to continuing with the design and manufacturing of the highest quality innovative solutions to meet the growing demand of these institutions for increased campus security."

Mr. Soloway concluded, "Developing school security products are a key R&D investment vertical for NAPCO. We continue to develop new technology to protect schools against violent intruders. We will not rest until every school is protected."
