NAPCO Security Technologies to Attend CEDIA 2016

The world's premier showcase for home technology NAPCO's iBridge Connected Home to be Showcased featuring recurring revenue opportunity

AMITYVILLE, N.Y., Aug. 15, 2016 /PRNewswire/ -- NAPCO Security Technologies, Inc. (Nasdaq: NSSC), one of the world's leading solutions providers and manufacturers of high tech electronic intrusion security, IoT connected home, video and fire systems, as well as enterprise-class access control and door locking products, today announces that company representatives will be attending the CEDIA 2016 industry show September 13-17, 2016 in Dallas, TX, where its iBridge Connected Home products will be showcased.

NAPCO's iBridge Connected Home is a product in the IoT (Internet of Things) market which includes the smart home segment. The IoT market is expected to grow in the US to \$18B in 2025 from \$3.5B in 2015¹. The smart home segment includes products that can control a homeowner's environment with the use of high tech equipment to enhance quality of life for the homeowner. iBridge allows homeowners to experience the ability to control temperature, lighting, locks, alarms and see live video as well as receive text message video alerts, all from the smartphone.

Security dealers can easily install and have homeowners enjoy this experience while gaining the ability to collect recurring revenue of which NAPCO receives a portion of for providing services to the dealer.

CEDIA 2016 is the worlds premier showcase for home technology. The show highlights many breakthrough products and is attended by the innovators in the industry. It is the connecting point for manufacturers, home technology professionals, industry partners and media.

Richard Soloway, CEO of NAPCO stated, "We are very excited to show our iBridge connected home product line to the 20,000 plus attendees. We expect to meet thousands of new dealers who will discover the opportunity with NAPCO, to make money with recurring revenue by installing NAPCO's unique iBridge product line."
