

## **NAPCO Security Technologies Announces Commercial Launch of the Starlink Connect Radio**

### **-Starlink Connect Radio to Begin Shipping to Dealers and Distributors This Week-**

AMITYVILLE, N.Y., Feb. 27, 2017 /[PRNewswire](#)/ -- NAPCO Security Technologies, Inc. (NasdaqGS: NSSC), one of the world's leading solutions providers and manufacturers of high tech electronic intrusion security, Internet of Things (IoT) connected home, video and fire systems, as well as enterprise-class access control and door locking products, today announced it has formally launched its Starlink Connect® Radio product. The radio was recently showcased at the ISC East security trade show in New York and was well received by the security professionals in attendance.

The Starlink Connect cellular radio replaces the need for traditional phone lines with alarm installations. Also this product offering, which will generate a further recurring revenue stream for the Company, gives dealers the ability to upgrade existing alarms systems that are currently installed across the US without the need for replacing existing hardware. Security dealers will be able to offer users the connected home experience with this radio by enabling homeowners to control locks, lighting, climate and other functions, while also allowing the homeowner to receive video text alerts. NAPCO 's iBridge® app for smartphones and tablets is used to enable these features and is available for both Apple and Android devices.

Richard Soloway CEO commented "We are excited to launch the newest product in the NAPCO portfolio, which significantly adds to our recurring revenue product line. There are millions of alarm systems installed across the US that need to be upgraded, and the Starlink Connect radio will be a great product that many dealers are excited to use."
