

NAPCO Security Technologies Announces Alleghany County Public Schools Project

-Trilogy Networkx Series Locks to be Installed-

AMITYVILLE, N.Y., May 17, 2018 /PRNewswire/ -- NAPCO Security Technologies, Inc. (NASDAQ:NSSC), one of the world's leading solutions providers and manufacturers of high tech electronic intrusion security, IoT connected home, video and fire systems, as well as enterprise-class access control and door locking products today announced that the Alleghany County Public Schools in North Carolina will be using NAPCO's Alarm Lock division Trilogy Networkx Series Locks in its schools.

The Trilogy Networkx Series Locks will be installed in the school buildings all over the county. These locks made by NAPCO's Alarm Lock Division have a rich feature set which includes wireless communication, unsurpassed five-year battery life, emergency global lockdown in ten seconds and the ability to change users and schedules. These features allow for the Alleghany County Public Schools to offer protection for its students and faculty.

Alleghany County Public Schools has recently placed the order for these locks and installation is currently ongoing. The project demonstrates the school's commitment to school safety for its students and staff.

Richard Soloway, CEO of NAPCO commented, "We are pleased to announce this project with the Alleghany County Public Schools. NAPCO continues to focus on the important issue of school security and having our products used by school districts like Alleghany is an important validation of the great reputation our products have. It is our belief that all the schools in the US should have some form of security and we make solutions that fit all budget sizes. We want to thank the people of Alleghany County Public Schools for choosing NAPCO products. "

About NAPCO Security Technologies, Inc.
