

NAPCO Security Technologies Announces Northwest Independent School Security Project

-District Schools to have Continental Access Control Installed-

AMITYVILLE, N.Y., Oct. 9, 2018 /PRNewswire/ -- NAPCO Security Technologies, Inc.(NASDAQ:NSSC) one of the world's leading solutions providers and manufacturers of high tech electronic intrusion security, IoT connected home, video and fire systems, as well as enterprise-class access control and door locking products today announced that the Northwest Independent School District ("NISD"), located in Texas, is installing access control products made by NAPCO's Continental Access division. NISD operates 18 elementary schools, five middle schools, three comprehensive high schools and one accelerated high school. The student population is approximately 24,000.

The project is ongoing with multiple schools already completed and another three to five schools expected to be completed during the fall of 2018. NISD has chosen to use Continental Access' CA4k software and associated hardware in order to secure all the outer doors for each school in the district. The CA4k software program has the fastest processing times currently available, rapid door opening times, full data downloads in minutes, email and SMS alerts and can control up to 32,000 doors. The access control system combines with wireless locking, alarm monitoring & IP video.

Richard Soloway, CEO of NAPCO commented, "Once again we are honored to announce another important school security project. NISD is a large and growing school district and we are excited to have them using NAPCO products. I want to thank the people of NISD for choosing our solution in order to make their schools safer from the potential threats that exist in society today. We here at NAPCO are dedicated to securing our nation's schools and have solutions for every school, large or small. During our recent conference calls we have discussed the increased activity we have seen in the school security vertical and with more funding legislation being passed recently we expect the business environment to remain strong in this area."

About NAPCO Security Technologies, Inc.
