

NAPCO Security Technologies Announces Project at New Austin ISD Corporate Office

AMITYVILLE, N.Y., Jan. 23, 2019 /[PRNewswire](#)/ -- NAPCO Security Technologies, Inc. (NasdaqGS: NSSC), one of the world's leading solutions providers and manufacturers of high tech electronic intrusion security, school safety lock down systems, Internet of Things (IoT) connected home, video and fire systems, as well as enterprise-class access control and door locking products, today announced that its products will be used in a project at the new Austin Independent School District corporate office.

The Austin ISD corporate office will be moving into a new building in Austin, TX which has 140,000 square feet and nine stories. NAPCO products are being used for security in the new building. Specifically the building will have NAPCO's Continental Access division products for access control paired with NAPCO intrusion alarm products. Next-Gen. CA4K[®] Enterprise Software Platform, is a truly scalable one-box solution. It is easy and economical to use, program, deploy and maintain, combining integrated access control, wireless locking, alarm monitoring & IP video. Currently the Austin ISD has NAPCO products in more than 125 schools in the district, where we are protecting approximately 84,000 students.

Richard Soloway, CEO of NAPCO commented, "We are very excited to announce this project for the new Austin ISD corporate office. NAPCO products are already protecting the students and staff at the many schools in the district, so using the same technology to protect the corporate office makes a lot of sense. We would like to thank the folks at Austin ISD for their continued loyalty in using NAPCO products."
