

NAPCO Security Technologies Announces School Security Project at San Diego Unified School District - School District Installing NAPCO's Continental Access Control -

AMITYVILLE, N.Y., Aug. 26, 2019 /[PRNewswire](#)/ -- NAPCO Security Technologies, Inc. (NasdaqGS: NSSC), one of the world's leading solutions providers and manufacturers of high-tech electronic intrusion security, school safety lock down systems, Internet of Things (IoT) connected home, video and fire systems, as well as enterprise-class access control and door locking products today announced that the San Diego Unified School District will be using NAPCO's Continental Access control system in its schools throughout the district. The district has 200 plus schools with approximately 135,000 students and 6,500 teachers.

Currently, there are fifty schools which have had NAPCO's Continental Access Control system installed. The project is ongoing with more installations being completed every day. NAPCO's Continental Access division provides products that ensure access control to many types of commercial buildings such as schools, hospitals and office & residential high-rise buildings. The system allows for end users like schools, as an example, to initiate a lockdown in 10 seconds. It also tracks the names of people entering and exiting the building during the day.

Richard Soloway, CEO of NAPCO commented, "We are proud to be installing our Continental Access product in the San Diego Unified School District. This is just one of the many school districts who have chosen to use the system. Our products are developed with the protection of students and faculty members in mind. We look forward to continue having a longstanding relationship with the San Diego Unified School District."
