

NAPCO Security Technologies Announces School Security Project at Montana State University-Northern

- Continental Access Control to be Complete Enterprise Solution -

AMITYVILLE, N.Y., Jan. 20, 2021 /PRNewswire/ -- NAPCO Security Technologies, Inc. (NASDAQ: NSSC), one of the world's leading manufacturers and service providers of high-tech electronic security devices as well as a leading provider of school security and safety solutions, announced today that its products are being used in a school security project at Montana State University-Northern. The university is located in Havre, MT, and has over one thousand students on its over 100-acre campus.

The project includes the installation of NAPCO 's Continental Access division Access Control products and Alarm Lock division Trilogy Networx locks which will provide an integrated enterprise class security solution. The new CA4K software and associated hardware will control access to over 150 exterior doors on the university campus. Features of the CA4K software program include rapid door opening times, full data downloads in minutes, email and SMS alerts and control of up to 32,000 doors. Features of the Trilogy locks include the unsurpassed five-year battery life, emergency global lockdown in ten seconds, wireless updates in order to make ID changes for faculty and students, schedule routines, and audit trails with date /time stamps.

Richard Soloway, CEO of NAPCO commented, "We are very excited to report a school security project at Montana State University-Northern. NAPCO is a leader in school security products and solutions and we are proud to be chosen by another university to secure the campus for its students and faculty. The funding legislation which continues to be passed by various states and the federal government is helping the schools install the security they need. We would like to thank Montana State University-Northern for choosing our products. NAPCO is committed to the highly important initiative of securing our nation's schools."

Safe Harbor Statement

This press release contains forward-looking statements that are based on current expectations, estimates, forecasts and projections of future performance based on management's judgment, beliefs, current trends, and anticipated product performance. These forward-looking statements include, but are not limited to, statements relating to the impact of COVID-19 pandemic; the growth of recurring service revenue and annual run rate; the

introduction of new access control and locking products; the opportunities for fire alarm products; and our ability to execute our business strategies. Actual results, performance or achievements could differ materially from those anticipated in such forward-looking statements as a result of certain factors, including those risk factors set forth in the Company's filings with the Securities and Exchange Commission, such as our annual report on Form 10-K and quarterly reports on Form 10-Q. Other unknown or unpredictable factors or underlying assumptions subsequently proving to be incorrect could cause actual results to differ materially from those in the forward-looking statements. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, level of activity, performance, or achievements. You should not place undue reliance on these forward-looking statements. All information provided in this press release is as of today's date, unless otherwise stated, and the Company undertakes no duty to update such information, except as required under applicable law.
