NAPCO Security Technologies Awarded School Security Project for the Pasadena Unified School District, Pasadena California

AMITYVILLE, N.Y., Nov. 6, 2024 /PRNewswire/ -- NAPCO Security Technologies, Inc. (NASDAQ: NSSC), one of the leading designers and manufacturers of high-tech electronic security devices, wireless recurring communication services for intrusion, fire alarm, access control and locking systems as well as a leading provider of school safety solutions today is announcing that its locking products have been selected for use in a school security project at the Pasadena Unified School District in Pasadena California. The school district has over 14,000 students attending classes at 23 schools.

The project includes a district wide update to address all classroom doors, K-12 to meet current State of California requirements. Pasadena USD determined that the Marks USA LA318GJ Intruder Lockdown mortise lock with inside indicator and the Marks USA 195DB Intruder Lockdown cylindrical lock are the best solutions to meet these requirements. Both solutions are available in SFIC removable core cylinder configurations to meet the district key system requirements.

Richard Soloway, CEO of NAPCO commented, "We are very happy to report that this school security project at the Pasadena Unified School District is being added to our roster of safer schools. The security of our schools remains a very important issue, as we continue to witness horrific events around the country. NAPCO continues to be a leader in school security products and solutions, and we would like to thank Pasadena Unified School District for choosing our products and being a highly valued customer."

Safe Harbor Statement
This press release contains forward-looking statements that are based on current expectations, estimates, forecasts and projections of future performance based on management's judgment, beliefs, current trends, and anticipated product performance. These forward-looking statements include, but are not limited to, statements relating to the impact of COVID-19 pandemic; the growth of recurring service revenue and annual run rate; the introduction of new access control and locking products; the opportunities for fire alarm products; and our ability to execute our business strategies. Actual results, performance or achievements could differ materially from those anticipated in such forward-looking statements as a result of certain factors, including those risk factors set forth in the Company's filings with the Securities and Exchange Commission, such as our annual report on Form 10-K and quarterly reports on Form 10-Q. Other unknown or unpredictable factors or underlying assumptions subsequently proving to be incorrect could cause actual results to differ materially from those in the forward-looking statements. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, level of activity, performance, or achievements. You should not place undue reliance on these forward-looking statements. All information provided in this press release is as of today's date,

unless otherwise stated, and the Company undertakes no duty to update such information, except as required under applicable law.
